

ANNOUNCEMENT

The **19th Panhellenic Conference on Concrete** will be held in Thessaloniki on **November 7-9, 2024**. The conference is organized by the Technical Chamber of Greece (TEE – TCG), the TEE of Central Macedonia and the Greek Scientific Society for Concrete Research, with the institutional support of the Civil Engineers Association of Greece.

In light of the previous successful conferences, we have committed ourselves to deliver a well-tailored and focused event of the highest scientific and organization standards. The conference provides the opportunity to experienced and young researchers and professionals to present their positions and research on current issues related to concrete constructions.

Approximately 500 delegates and representatives of important companies - exhibitors from all over Greece are expected to attend **19th Panhellenic Concrete Conference**. The scientific topics to be covered at the conference, as well as all relevant information, are available on the conference website www.skyrodema2024.gr.

As part of the preparation and information for the upcoming 19th Panhellenic Conference on Concrete, please inform the partners and colleagues of your organization about this event.

The deadline for submitting papers is June 30.

For more information on the organization, proposal submission and registration please visit the conference website www.skyrodema2024.gr. Proposals can be submitted [here](#).
